<https://writeaway.ca/>

WriteUp and WriteAway are online services which will allow you to submit your writing assignment.

Students can expect to receive feedback on their submission within 24-72 hours. That said, both services are "first-come, first-serve." Please ensure to submit your assignment early so you have enough time to act on the feedback provided.

You may re-submit your assignment up to two additional times.

When submitting your work, you should try to include your assignment instructions and grading rubric (the criteria will the instructor use to mark your assignment). This will allow the tutors to provide the best feedback possible.
