

# "LEARNING IN" CRITERIA FOR GEN AI RUBRIC DESIGN

1

## Understanding, Application, and Originality

GenAI tool capabilities for brainstorming, editing, and grammar. Enhance ideas with GenAI while ensuring originality and personal insight.

2

## Critical Thinking and Ethical Use

Critically assess GenAI outputs and justify their use in the assignment. Adhere to GenAI usage rules and cite all outputs properly.

3

## Reflection, Evaluation, and Communication

Reflect on GenAI's impact on learning and evaluate its effectiveness. Communicate GenAI's role clearly and present work coherently.

4

## Quality of Argumentation and Evidence

Use GenAI to construct well-reasoned arguments and provide robust evidence. Evaluate the credibility and relevance of sources generated or suggested by GenAI.

5

## Technical Proficiency and Adaptability

Skillfully use GenAI tools and troubleshoot issues. Adapt to new GenAI features and demonstrate continuous learning.
